Garbage disgrace

Tonnes of rubbish collected from just one bayside island

BAYSIDE environmentalists have been left angry and saddened by the state of the bay's islands after a clean-up collected more than two tonnes of rubbish from Mud Island alone. Included in the 2.4 tonne pile of garbage were the usual array of plastic bags and bottles, along with the remains of vessels washed out of the Brisbane River during the 2011 floods. The revelation by the Ocean Crusaders group comes as a Lota man exposes the filthy state of the local wharf, where the man- groves are being clogged with debris including discarded bags of dog poo.
